

**E-Figure 3. Examples of stimuli used in the ‘Reading the Mind in the Eyes’ test.**

dominant

friendly

guilty

horrified

E-Figure 3a: In this picture the correct answer is ‘friendly’, and thus is an example of a social complex emotional expression with a positive valence.

alarmed

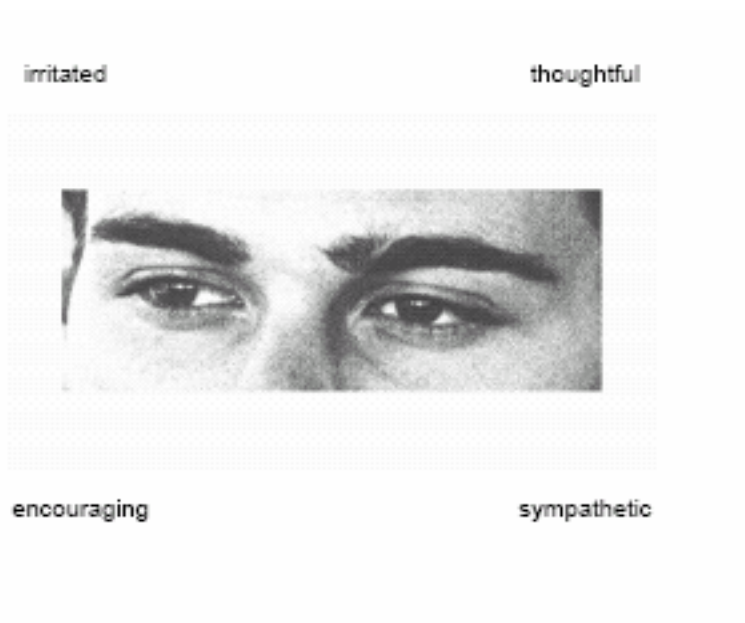

shy

hostile

anxious

E-Figure 3b: this is an example of a complex social stimulus of negative valence (the correct answer is ‘hostile’)

E-Figure 3c: an example of a 'cognitive' expression- the correct response being 'thoughtful'.
